It makes me very happy to see so many young Christians started on the new life in the church that gives us all our greatest happiness. What a great pleasure it is to be a member of a good church and to be surrounded by friends. I have already made friends with a little boy that sat by my side down the aisle. He is a very little fellow, but he is a good friend of mine now. I was looking around for a place under the pew to lay my bat, when the boy said: 'You can put your hat there. I won't kick it.'

She said tell them to stay in the church, and I don't know anything better to tell you. God bless you all."

Mr. Rockefeller's appearance discredited the published statements of failing health. Lack of eyebrows and eyelashes makes his face almost expressionless when he talks, but his frame seemed firm and erect and his voice as strong as ever, and his face and head had a ruddy glow that seemed to betoken health.

It is admitted that the members of the Tariff Reform Club are sincere, music and the words, what a blessed but they were equally candid, in their thing it is to have a church home or own opinions, in 1893-97, when every desire to appear." That is precisely United States was being impoverished by the rule of the Free-trade theories urged by the New York Reform Club. Notwithstanding that incontrovertible fact the same theories are now appealing to other people to contribute the funds necessarp to en-able that club to again labor for the impoverishment of all the people of the United States by the same methods that were utilized in 1893-97, when the business and laboring men lost more than fifteen billions of dollars during the four years of Free-Trade agitation and rule!

It is known by all the intelligent people of the United States that they ost at least one-seventh of their aggregate total wealth during those four years, yet the New York Tariff Reform Club is asking the people of the of the destructionists and obstructionists against the continued general prosperity of the people, but it will fail because the voters of the present generation remember the unequaled hard times from 1893 to 1897. Cuba is not in danger of starvation. Living there is a very simple problem, requiring less effort than in any part of this country. In Favor of Trusts. As a matter of fact, no measure which could pass Congress would be more directly in the interest of the Beef trust, and more directly against the interests of the farmers and stock raisers of the United States than to remove the duty on live stock. It would give the Beet trust a cheaper source of supply for raw material and thus enable it to beat down the price of American live stock, for which the trust affords the principal market; while it would not operate in the slightest degree to break the monopo-

Poetic Justice for Jones.

The amusing epistle to the Presi-dent in which "Jeff Davis, Governor of Arkansas," reads Senator Jones out of the Democratic party has its serious, not to say pathetic, side. It is true that Jones has been repullated by the glorious and unterrified Democracy of Arkansas, though the rest of the world does not know wherein he has offended and incurred this not

Jones has an interest in a co bale trust-or combination, as he insists on describing the concern. Probably he has accepted dividends in the coin of the realm, which happens to be gold money at par with gold. This, too, is his misfortune not his fault. He did his utmost to prevent the calamity, and to render gold payments impossible. Is he the only Democrat to own shares in prosperous combination? We hope not. We cannot honor our country with too deep a reverence; we cannot love her with an affection too pure and fervent; we cannot serve her with an energy of purpose or faithfulness of zeal too steadfast and ardent. And what is our Country? It is not the East with her hills, and her valleys, with her countless sails, and the rocky ramparts of her shores. It is not the North with her thousand villages and her harvest home; with her frontlers of the lake and the ocean. It is not the West with her forest sea and her inland isles, with her luxurious expanses clothed in the verdant corn, with her beautiful Ohio and her majestic Missouri. Nor is it yet the South, opulent in the mimic snow of her cotton, in the rich plantation of the rustling cane, and in the golden bosom of the rice field. What are these but the sister family of one great, better, holier family.

They are Better off.
